Annual Index

Volume 32, 2000

January 1–94
April 95–185
July 187–278
October 279–370

Accuracy of Count Data Estimated by the Point-in-Polygon Method, Yukio Sadahiro, 64–89

Akkerman, Abraham, The Diurnal Cycle of Regional Commuter Systems: North Wales, 1991, 247–66

Albiac, José. *See* Feijoó, M. Luisa

Arentze, T. A., F. Hofman, H. van Mourik, H.J.P. Timmermans, and G. Wets, Using Decision Tree Induction Systems for Modeling Space-Time Behavior, 330–50

Bayesian Approach to Prediction Using the Gravity Model, with an Application to Patient Flow Modeling, A, Peter Congdon, 205–24

Bayesian Estimation of Limited Dependent-Variable Spatial Autoregressive Models, James P. LeSage, 19–35

Bearing Correlogram, The: A New Method of Analyzing Directional Spatial Autocorrelation, Michael S. Rosenberg, 267–78

Calvo, Elena. *See* Feijoó, M. Luisa

Capital Assistance for Small Firms: Some Implications for Regional Economic Welfare, Daniel Felsenstein and Aliza Fleischer, 36–49

Cherry, Steve. *See* Raphael, Marilyn

Church, Richard L. *See* Cova, Thomas J.

Closed-Form Maximum Likelihood Estimates of Nearest Neighbor Spatial Dependence, R. Kelley Pace and Dongya Zou, 154–72

Collins, John B., and Curtis E. Woodcock, Combining Geostatistical Methods and Hierarchical Scene Models for Analysis of Multiscale Variation in Spatial Data, 50–63

Combining Geostatistical Methods and Hierarchical Scene Models for Analysis of Multiscale Variation in Spatial Data, John B. Collins and Curtis E. Woodcock, 50–63

Congdon, Peter, A Bayesian Approach to Prediction Using the Gravity Model, with an Application to Patient Flow Modeling, 205–24

Contiguity Constraints for Single-Region Site Search Problems, Thomas J. Cova and Richard L. Church, 306–29

Cova, Thomas J., and Richard L. Church, Contiguity Constraints for Single-Region Site Search Problems, 306–29

Diurnal Cycle of Regional Commuter Systems: North Wales, 1991, The, Abraham Akkerman, 247–66

Duncan, Craig, and Kelvyn Jones, Using Multilevel Models to Model Heterogeneity: Potential and Pitfalls, 279–305

Economic and Environmental Policy Analysis of the Flumen-Monegros Irrigation System in Huesca, Spain, M. Luisa Feijoó, Elena Calvo, and José Albiac, 187–204

Equity Model for Locating Environmentally Hazardous Facilities, An, Anthony Falit-Baiamonte and Jeffrey P. Osleeb, 351–68

Evaluation of Zone Orderings Based on the Correlation of Order Differences and Distances, Yoshiaki Ohsawa and Takeshi Koshizuka, 173–85

Falit-Baiamonte, Anthony, and Jeffrey P. Osleeb, An Equity Model for Locating Environmentally Hazardous Facilities, 351–68

Feijoó, M. Luisa, Elena Calvo, and José Albiac, Economic and Environmental Policy Analysis of the Flumen-Monegros Irrigation System in Huesca, Spain, 187–204

Felsenstein, Daniel, and Aliza Fleischer, Capital Assistance for Small Firms: Some Implications for Regional Economic Welfare, 36–49

Fleischer, Aliza. *See* Felsenstein, Daniel

Gahegan, Mark, On the Application of Inductive Machine Learning Tools to Geographical Analysis, 113–39

Hofman, F. *See* Arentze, T. A.

Influence of Race on Household Residential Utility, M William Sermons, 225–46

Jones, Kelvyn. *See* Duncan, Craig

Koshizuka, Takeshi. *See* Ohsawa, Yoshiaki

LeSage, James P., Bayesian Estimation of Limited Dependent-Variable Spatial Autoregressive Models, 19–35

Murray, Alan T., Spatial Characteristics and Comparisons of Interaction and Median Clustering Models, 1–18

Ohsawa, Yoshiaki, and Takeshi Koshizuka, Evaluation of Zone Orderings Based on the Correlation of Order Differences and Distances, 173–85

On the Application of Inductive Machine Learning Tools to Geographical Analysis, Mark Gahegan, 113–39

Osleeb, Jeffrey P. *See* Falit-Baiamonte, Anthony

Pace, R. Kelley, and Dongya Zou, Closed-Form Maximum Likelihood Estimates of Nearest Neighbor Spatial Dependence, 154–72

Raphael, Marilyn, and Steve Cherry, Spatial Analysis of the Factors Contributing to the Relationship between the Transient, Meridional Eddy Sensible, and Latent Heat Flux in the Southern Hemisphere, 140–53

Rosenberg, Michael S., The Bearing Correlogram: A New Method of Analyzing Directional Spatial Autocorrelation, 267–78

Sadahiro, Yukio, Accuracy of Count Data Estimated by the Point-in-Polygon Method, 64–89

Sermons, M William, Influence of Race on Household Residential Utility, 225–46

Shape Definition for Geographic Applications Based on Edge, Elongation, and Perforation, A. Elizabeth A. Wentz, 95–112

Spatial Analysis of the Factors Contributing to the Relationship between the Transient, Meridional Eddy Sensible, and Latent Heat Flux in the Southern Hemisphere, Marilyn Raphael and Steve Cherry, 140–53

Spatial Characteristics and Comparisons of Interaction and Median Clustering Models, Alan T. Murray, 1–18

Timmermans, H.J.P. *See* Arentze, T. A.

Using Decision Tree Induction Systems for Modeling Space-Time Behavior, T. A. Arentze, F. Hofman, H. van Mourik, H.J.P. Timmermans, and G. Wets, 330–50

Using Multilevel Models to Model Heterogeneity: Potential and Pitfalls, Craig Duncan and Kelvyn Jones, 279–305

van Mourik, H. *See* Arentze, T. A.

Wentz, Elizabeth A., A Shape Definition for Geographic Applications Based on Edge, Elongation, and Perforation, 95–112

Wets, G. *See* Arentze, T. A.

Woodcock, Curtis E. *See* Collins, John B.

Zou, Dongya. *See* Pace, R. Kelley
